

# Glide Education: Connect

Fuel innovation in your classrooms with Glide Education's cutting-edge connectivity. Elevate learning experiences, ensure seamless connectivity, and embrace the digital future effortlessly. Connect with confidence, transform education with Glide.

Our goal is to alleviate the burden on schools and their IT teams by providing a comprehensive range of services that meet DfE requirements for digital safety and reliable connectivity. For schools and multi-academy trusts lacking time or resources to handle complex networking environments, Glide offers a hassle-free, fully managed solution with flexible finance options, enabling effective budget utilisation and ensuring access to the latest technology for pupils and staff.

## Our Flexible Service Offers

### Dedicated Internet Solutions

Experience scalable, reliable internet solutions with speeds up to 10Gbit/s. Choose from various access methods tailored to your campus and school environment, including FTTP broadband and Leased Line services.

### Private Network Solutions

Connect buildings on your campus and schools locally and nationally. Utilise a wide range of solutions, including MPLS for multi-site connectivity and dark fibre, providing greater control over your network.

### Resilience Services

Ensure uninterrupted learning with resilience services. Benefit from secondary connectivity circuits with diverse traffic routes and 4G/5G mobile failover solutions for peace of mind regarding staff and student access.

### Internal Cabling Infrastructure

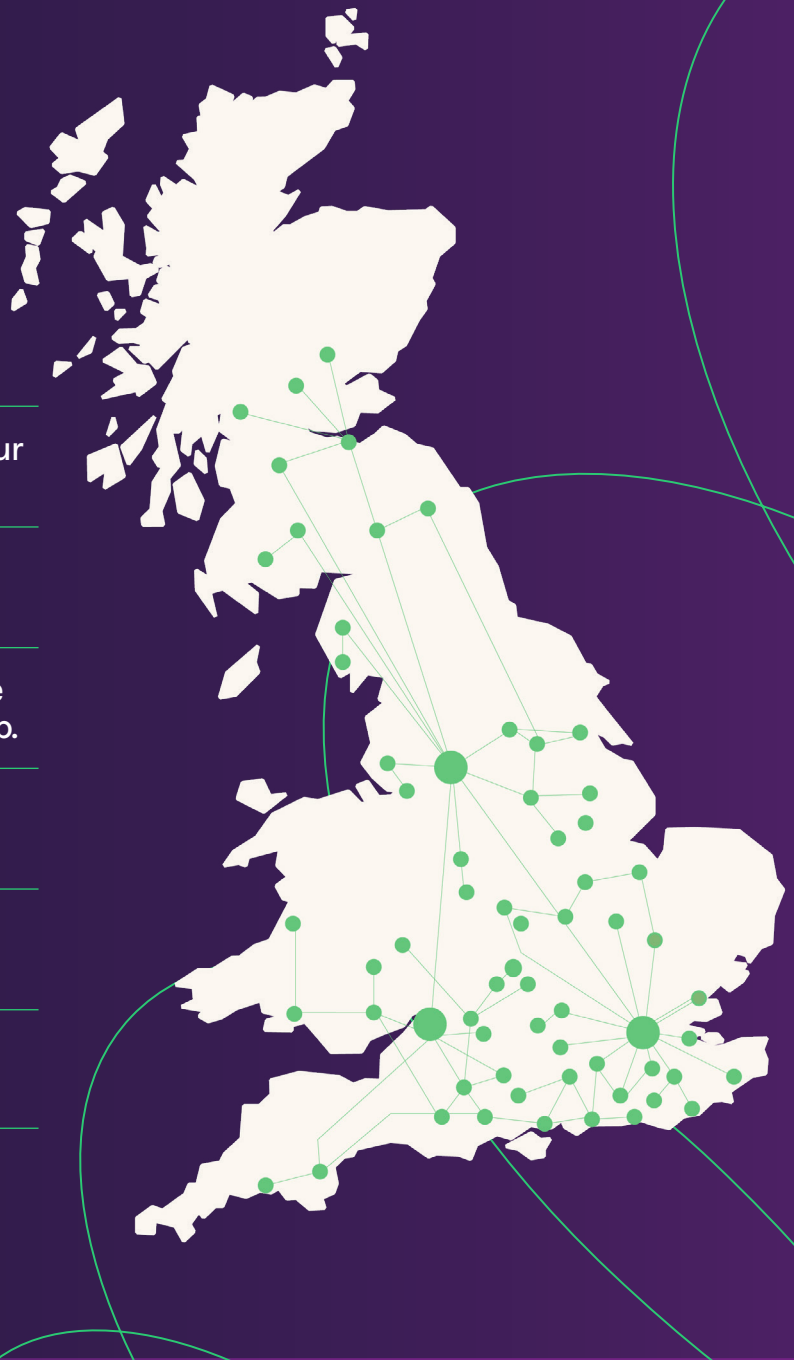

Establish a robust internal cabling infrastructure. Our comprehensive solution includes wired copper and fibre-optic cabling, server racks, comms cabinets, and Power over Ethernet (POE).

### Data Centre Connectivity

Drive your digital acceleration strategy with data centre connectivity. Explore co-location services, application hosting, and centralised internet breakouts to support your organisation's growth.

# Glide Connectivity: The Benefits To You

- Experience blazing speeds up to 10Gbit/s for unbeatable reliability.
- Scale effortlessly with connections to our fibre cities.
- Glide's failproof UPS solution for uninterrupted connectivity.
- From cabling to Power over Ethernet, we design your network from the ground up.
- Elevate efficiency with co-located services for application hosting.
- Securely connect multiple sites using a range of options.
- Ensure non-stop operations with a secondary access circuit.
- Direct peering, including connections into Google Classroom for a quicker, enhanced user experience.

## About Glide

With **35 years of experience**, our market-leading position as a provider of managed Wi-Fi services in the UK extends across diverse sectors such as student, residential, businesses, and flexible workspaces, where we bring innovative asset classes to life. **Our extensive network boasts 400,000 users**, spans 1,500 km of dark fibre, encompasses 14 fibre cities deployed, and **features over 200 UK fibre points of presence**, solidifying our commitment to delivering cutting-edge connectivity solutions.

Transform your educational environment with  
Glide's comprehensive connectivity solutions.
