Data allowance cap for our Primary and Pre-Full Fibre services are network dependent: O2 and Vodafone – 650GB, Three – 500GB. If 500Gb or 650Gb (network dependent) of data is consumed in 2 separate months in a 6-month period we reserve the right to investigate whether the SIM is being used for non-standard purposes. In these circumstances we reserve the right to adjust the tariff or terminate the agreement.

*Glide's 4G back-up service has a committed 2Gb data allowance, with a 'fair usage' limit of 150Gb per month, as monitored via our mobile platform. Customers exceeding this limit are issued an initial warning. Exceeding this limit for a second consecutive month will incur a charge for the excess amount. Excess charges apply at the rate of £0.02 (2p) per Mb per month (exc VAT). For example, a customer who uses 160Gb in that month will receive a charge as follows: £0.02 (2p) x 10,000Mb (10Gb excess) = £200 (exc VAT). Excess charges will not apply where the overage results directly from a Glide breach of the Service Level Agreement.

** Price excludes VAT and is subject to survey (excess construction charges may apply). Each year in April, we may adjust the prices of some of our products and services in line with the ONS's Retail Price Index (RPI).

Glide Voice: Unlimited calls to UK landlines and mobile - inbound and outbound, 5 international destinations free.

Glide Cloud Voice: 2000mins/month UK landline & 2000mins/month to UK mobile.

- The threshold is applied at the company level, not at the level of the individual subscriptions. For example, if a company has 4 subscriptions, it will get up to 8,000 free minutes which can be pooled across any of the individual subscriptions.
- Where a customer has exceeded these conditions, they will be notified by Glide and advised that further overages will result in additional charges added to their standard monthly bill.
- If notified by Glide but the customer continues to exceed these conditions, all usage during the month for the company will be charged at the following rates:
