

## PRODUCT SHEET

# Managed Wi-Fi for business

**In today's digital-first world, businesses rely on seamless, secure, and high-performance connectivity to stay competitive.**

Glide's Managed Wi-Fi solutions are purpose-built to provide businesses with reliable, scalable, and hassle-free wireless connectivity, allowing you to focus on growth while we handle your network.

Every growing business needs two essentials: a fast, reliable internet connection and a robust, secure Wi-Fi network. Glide Managed Wi-Fi delivers both. With dedicated connectivity just for your business and an intelligent network, Glide ensures seamless performance whether you're transferring large files, running multiple applications, or both.

Utilising the latest Wi-Fi technology, Glide offers faster speeds, greater capacity, and secure connectivity. From the start, you receive full support with specialist installation and managed services for ongoing configurations and updates.

**Focus on your business, while we handle your Wi-Fi.**

**111,000+**

live access points

**500,000**

devices connected at peak times

**1,100+**

sites managed

**500+**

Managed Wi-Fi customers

# Why choose Glide's Managed Wi-Fi for your business?

By choosing Glide's Managed Wi-Fi solutions, your business benefits from a reliable, secure and scalable network infrastructure, allowing you to focus on what you do best – driving your business forward.

## Enterprise Wi-Fi with full coverage

Glide ensures high-speed Wi-Fi coverage across your entire business premises, eliminating dead zones and unreliable connections, providing enhanced employee and customer experiences.

Whether you operate in a multi-floor office, a co-working space, or a large commercial environment, our Managed Wi-Fi solutions are designed to optimise signal strength and performance for all users and devices.

## Consistent, reliable performance

For businesses that depend on the internet, nothing less than total reliability and high speeds will suffice. Glide offers an internet connection dedicated solely to your business.

This means no shared bandwidth and no slowdowns during peak times. With symmetrical upload and download speeds of up to 10 Gbit/s and beyond. You can rely on consistent performance no matter what.

## Scalability to grow with your business

Whether you're expanding office space or onboarding more employees, Glide's Managed Wi-Fi is designed to scale effortlessly.

Our solutions adapt to increasing bandwidth demands and support additional users without compromising performance, so you can focus on your future development plans and creating new revenue growth opportunities.

## Hassle-free management

Managing an in-house Wi-Fi network can be complex, time-consuming, and costly. Glide takes the burden off your IT team with a fully managed solution. This not only lowers operational costs but also ensures that your network is maintained by experts, providing optimal performance.

## Partner with Glide for seamless solutions

With Glide, you get single supplier advantage – a fast, reliable internet connection and a robust, secure Wi-Fi network. We handle the delivery and installation of everything ourselves, ensuring quick setup and full responsibility for the entire network.

Let us take care of your Wi-Fi network, so you can focus on what matters most – growing your business.
