Why Glide?	9
Case study: The Scotsman Group	10

Running a hotel is tough enough without the added pressure of unreliable internet.

Whether you have guests frustrated with poor coverage, buffering videos, or slow speeds, or the fear of outdated infrastructure causing one-star reviews – managing it all can be a real struggle.

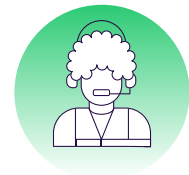

At Glide, we understand the challenges facing hotel operators. Our service eliminates these problems entirely. Say goodbye to the headaches of managing your network or keeping up with the latest tech updates. We take care of it all, ensuring your guests enjoy fast, flawless Wi-Fi – leading to glowing five-star reviews and happier, more satisfied customers.

5.0 Excellent Wi-Fi
★★★★★

We take care of everything so you can focus on your guests.

Glide's managed Wi-Fi solution includes:

Fully managed service

From installation to day-to-day support, we've got your back.

Tailored network design

Built specifically for your property, no matter the size or layout.

24/7 support

Our experts are on hand around the clock, ready to step in whenever you need help.

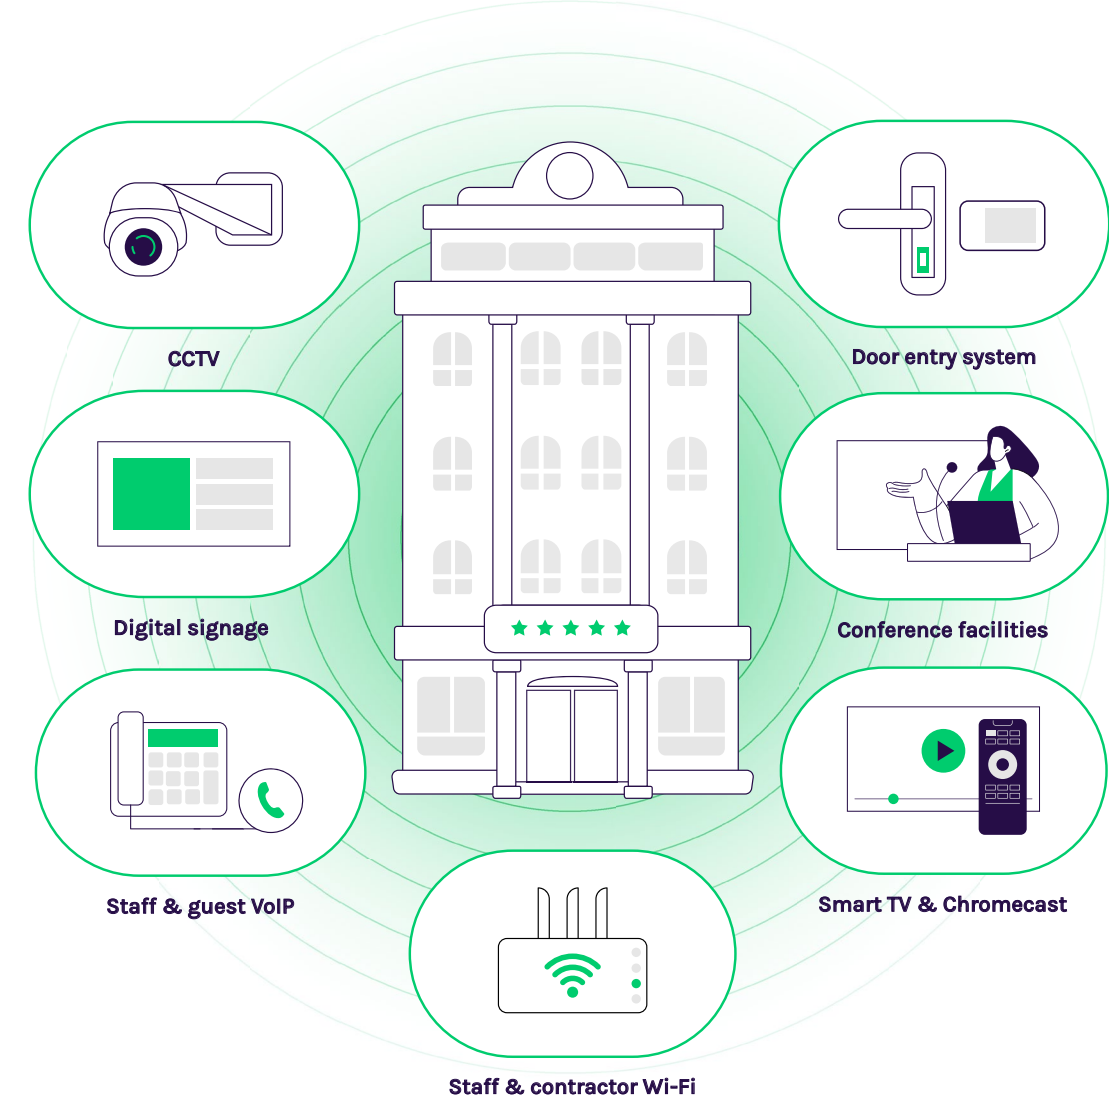

Scalable solutions

Whether you're running a single hotel or a whole group of properties, our Wi-Fi scales with your needs.

Our managed approach ensures you can focus on running your business while we handle the internet. With Glide, there is no hassle - just exceptional connectivity that boosts your guest experience and keeps them coming back to stay again and again.

Everything connected by ultrafast, reliable Wi-Fi.

Our Wi-Fi service enables and enhances the technology you currently offer:

With Glide's Wi-Fi, you get features that make a real difference to your guests and your business:

Reliable, high-speed Wi-Fi

Perfect for streaming, working, and everything in between – no interruptions.

Multiple device support

Your guests can connect all their devices without compromising on speed or performance.

Custom splash pages

Showcase your brand, promote your services, and create a personalised guest experience.

Different network types

Standard guest networks for typical hotels; individual private networks for longer staying guests.

Security built-in

Protect your guests and your network with the latest in security technology.

Wi-Fi for your staff as well

Hotel staff and contractor networks are included.

All from the UK's leading managed Wi-Fi provider

Why Glide?

Glide is all about making things easier for you while delivering a service your guests will love. When you choose Glide, you get:

- ✓ **A partner who understands hospitality**
We know what your customers expect and how to help you deliver.
- ✓ **Cutting-edge technology**
Our infrastructure is built for today and ready for tomorrow.
- ✓ **Proactive, always-on support**
We're with you every step of the way, with round-the-clock monitoring and support.
- ✓ **A focus on user satisfaction**
We help you give guests the seamless, connected experience they expect.
- ✓ **Solutions that grow with you**
From small boutique properties to large hotel groups, we're ready to scale when you are.

CASE STUDY

scotsman COLLECTION

Challenge

The Scotsman Group needed a Wi-Fi solution that would meet their high standards and ensure that every guest, across multiple properties, had seamless connectivity. Previously, they faced issues with coverage gaps and inconsistent speeds, resulting in lower guest satisfaction.

Solution

Glide carried out an extensive Wi-Fi survey, carefully mapping out every corner of each property. We then designed a tailored network plan to ensure full coverage and consistently high speeds throughout. Our goal was simple: to eliminate the frustrations of unreliable internet and provide a service that exceeded both guest and operator expectations.

Outcome

The Scotsman Group is now delighted with their upgraded Wi-Fi. Every corner of every room is covered by blazingly fast, highly reliable internet, transforming their guests' experience. With Glide managing the network, their team can focus on delivering their exceptional hospitality, confident that the connectivity is up to standard. The positive reviews keep rolling in, with guests raving about the flawless Wi-Fi.

Glide has completely transformed our guest experience at our hotels and student accommodation properties. Their solution not only eliminated previous connectivity issues but also enhanced our operational efficiency. Working with Glide means we can confidently deliver a world-class customer experience to our guests, knowing we have robust, future-proof connectivity supporting us at every step.
